

GUIDELINES FOR CARPET PROTECTION FILM

Please read before using this product

USAGE

1. Protects against spills, scratches, stains & dirt during building works, remodeling, painting, decoration and furniture removal.
2. Heavy duty rip-resistant material
3. Self-adhesive makes it quick and easy to apply and remove
4. This protection film is to be used as temporary surface protection against dust, paint, plaster and potential scratching. This is not designed for protection against corrosion, humidity or chemicals.

APPLICATION

1. Before applying the film ensure the surface is clean and dry.
2. It is recommended to test the product on small area of the surface prior to using. Test the film for 48 hours on a small hidden area of carpet to ensure compatibility with the carpet and to ensure that there is no adhesive transfer or damage to carpet.
3. Do not store or use above 37°C or below 4°C. The product should be stored at room temperature 24 hours prior to application.
4. To apply the roll, lay it on the floor facing the direction required to cover. Push the roll forward a small distance and press down firmly to ensure the film has adhered to the carpet.
5. Continue to unroll, pressing down and smoothing out any air pockets, checking the film is rolled straight.

LIMITATIONS

1. **Do not leave the film on carpet for longer than 30 days.**
2. The film can be stored for up to six months in its original packaging at room temperature and in dry conditions.
3. For use on **synthetic carpets only**.
4. Film is single use only. Remove and dispose of in accordance with local environmental regulations.
5. Do not use on wool or oriental carpets. Not suitable for use on rugs, worn carpets or loose fitted carpet tiles.
6. Do not use on hard surfaces, such as hardwood, ceramic tiles, linoleum, vinyl flooring or marble.
7. **Do not apply on newly laid carpets** where a glue or adhesive has been used. Allow up to 72 hours for any vapours to evaporate before laying the film.
8. **Do not apply to a damp surface**, as this will prevent any moisture from evaporating and could cause discoloration of carpet fibers.
9. If the carpet had been recently cleaned, allow it to completely dry for a minimum of 10 days before using the film.
10. Usually high traffic areas or outdoor exposure may require renewal of film weekly.
11. The product should be applied at room temperature.
12. No responsibility will be taken for the misuse of this product, or the consequences of such non-recommended applications. Use of the product for non-recommended applications is done so at users own risk. Our liability is limited to the cost of or replacement of a defective product and does not cover any claims for consequential losses. It is recommended that the whole room floor is covered to avoid dirt distribution.
13. Avoid prolonged periods in direct sunlight.
14. It is recommended that the whole room carpet is covered to avoid dirt distribution.
